SUMMARY

AI & ML enthusiast pursuing a Bachelor's degree in Artificial Intelligence and Machine Learning with foundational Python knowledge, strong problem-solving skills, and a passion for software development.

EDUCATION

Srinivas Institute of Technology, Mangaluru

B.E – Artificial Intelligence and Machine Learning | 2023-2027

CGPA-8.53

Carmel Composite P.U College, Modankapu

PUC – PCMC | 2021-2023

Percentage-83

St John's English Medium High-School, Allipade

SSLC | 2020-2021

Percentage-86

PROJECTS

Natural-Disaster Relief Management System

- Developed an offline disaster relief platform with biometric authentication and blockchain using Node.js, MongoDB, Redis, Git, and GitHub.

Medical Chatbot

- Built a rule-based medical chatbot providing health-related responses using predefined logic and user inputs.

PixelHawk – Real-Time Object Detection

- Developed a real-time object detection system using OpenCV, MobileNetSSD, and Haar Cascade for accurate object recognition.

AI-Enabled Drone-Based Wildlife Tranquilization System (Ongoing)

- Developing an AI-powered wildlife tranquilization system using YOLOv8, BoT-SORT, and instance segmentation for real-time animal detection, tracking, and safe dart-target identification.

EXPERIENCE

AI-ML Virtual Internship | AWS Academy (via EduSkills)

Apr2025-Jun2025

Built a machine learning model that automated data analysis tasks, reducing manual processing time by 30%.

Machine Learning Internship | Cognifyz Technology

Nov 2025 – Dec 2025

Worked on a ML virtual internship focusing on data pre-processing, understanding ML algorithms and implementing basic models using python libraries. Tools & Technologies: Python, Google Colab, Numpy, Pandas.

CERTIFICATIONS

- AWS – AWS Academy Cloud Foundation.
- Web Development Fundamentals – IBM.
- Oracle Certified Foundations Associate – AI Foundations (Oracle Cloud Infrastructure).
- AWS Certified Machine Learning – Specialty.
- Certiport - IT Specialist – HTML5 Application Development, Artificial Intelligence, Data Analytics.

SKILLS

- Technical:** Python, Artificial Intelligence, Machine Learning, Data Visualization, Web Technologies.
- Data & Visualization:** MS Excel, Tableau, Power BI.
- Core Skills:** Logical Thinking, Problem Solving, Basic Data Analysis.
- Libraries, Tools & DevOps:** NumPy, Pandas, Git, GitHub, Docker (Basic), Jenkins (Basic), AWS (Basic).
- Soft Skills:** Communication, Team Collaboration.

ACHIEVEMENTS

- Runner-up in Srinathon 2.0 Hackathon 2025 (Team Event) Organized by SSOSC and Nexux SIT.
- Participated - IEEE CEDA Ideathon 2025 (Team Event) Held at VTU, Belagavi.

EXTRA-CURRICULAR/SOCIAL ACTIVITIES

- National Service Scheme (NSS) – Involved in social service, awareness drives and community outreach programs.
